

# PLASMA tec

*Inverter based*

*3 ph 400Volt*

*Air Plasma*

*Cutting Machines*

## 90HF

*30 mm  
cutting capacity*

*with CB150 torch*

## 60HF

*20 mm  
cutting capacity*

*with CB50 torch*

- Lightweight and portable with excellent cutting performance
- Low priced consumables
- Cuts mild and stainless steel, brass aluminium copper etc.
- Fully variable current control for optimum cutting performance.
- 4 LED indicators warn of – low voltage, inadequate air flow, power on and thermostat operation
- Air filter/regulator supplied
- Fan cooled
- Quick release central connector

SPECIFICATION		60HF	90HF	
Mains input 3ph	V	400	400	
Fuse rating	A	20	25	
Absorbed power	kW	8	12	
Torch voltage	V	370	480	
Duty cycle @%	A	60@35	90@40	
Max cutting thickness -steel	mm	20	30	
Air flow reqd @5bar	lt/min	170	200	
Weight	kg	20	30	
Dimensions	L W H	mm	475	505
			170	250
			340	430
