

# SPOOL-ON-GUN

# GPZ

*Ideal for welding applications where the power source cannot be brought near to the work.*

*Particularly suitable for MIG welding aluminium*

- Can be fitted to most MIG power sources
- 24 volt AC supply required
- Interface PCB supplied with gun
- 6 metre cable supplied
- Euro connector + power lead
- Runs 0.6 - 1.2mm hard and soft wires
- Wire feed speed control on gun
- MB36 type front end consumables
- Takes standard 100mm spools
- Reduces consumable waste

WELDING CAPACITY	AMPS @ 60% DUTY CYCLE	350
MOTOR VOLTAGE	DC	24
MOTOR POWER	WATTS	16
WIRE SPEED	METRE/MIN	20
WEIGHT	KG	1.15
